DROP & PAINT

THAT'S THE WAY

NEW RELEASES · FEBRUARY 2024

FROM SCALE75 WE ARE GLAD TO PRESENT YOU THE SOLUTION FOR QUICK AND EASY AIRBRUSHING.

"Drop & Paint" are the new line of acrylic paints from Scale75. With its formula and ease of use, it is set to revolutionize airbrushing. These paints are suitable for all types of model building and visual arts.

They can be used on all materials and **do not need to be thinned** with any other product.

THEY ARE READY TO USE AS IS. DROP & PAINT... THAT'S THE WAY!

The new acrylic paints we have developed have been formulated to enhance airbrushing skills at all levels and make airbrushing a snap. Forget clogging, measuring, calculating ratios, mixing and tedious airbrush cleaning sessions. Our new formula is the once and for all solution for all your airbrushing difficulties.

Sweep away all obstacles and become a proficient, expert airbrush artist.

The line comes with **128 new acrylic colors** in conventional 17ml bottles with sealed caps. The paints are arranged by tone into 16 different sets of 8 colors each.

The only line of colors you'll ever need for all your model airbrushing!

WHAT'S NEW ABOUT DROP & PAINT?

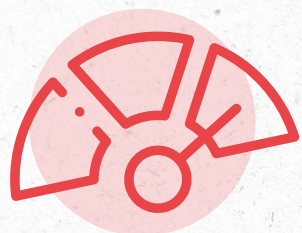

No more clogging. No more measuring out ratios. No more coverage problems. Versatile airbrushing and a new simple and easy way to work.

Paint quickly, adaptably, efficiently!

No more having to paint in thin layers to achieve the right level of dilution and coverage. Just you, your airbrush, and the paint. For all your painting needs: ultra-fine lines, base coats, blending, glazes, and filters.

Dread airbrushing? Banish your fear... it's never been so easy!

WHY IS DROP & PAINT THE ANSWER?

SPEED

1 Work at a fast clip. No thinner needed (thinner is optional for filters and glazes). These paints flow without any added thinning medium. Measuring mixing ratios is a thing of the past! Pour paint into your airbrush, and off you go!

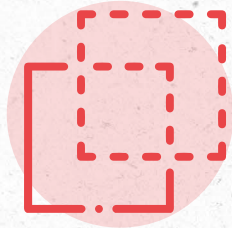

CLEANING

2 These paints do not dry inside the airbrush. No more clogging! You won't have to take your airbrush apart for cleaning every time you turn around. Easy cleaning extends airbrush life. You won't have to spend so much time and effort cleaning your airbrush between colors.

WHY IS DROP & PAINT THE ANSWER?

COVERAGE

3. High coverage capacity, cutting down on the number of airbrush passes when painting. These paints work just fine over both dark and light layers of color and let you use colors with the level of transparency you need.

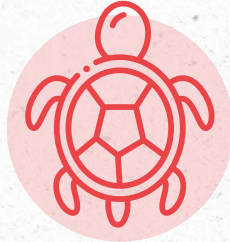

FINISH

4. Matte, metallic, or glossy finishes when dry depending on the color and your needs.

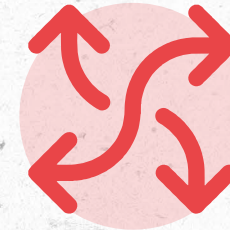

WHY IS DROP & PAINT THE ANSWER?

SLOW-DRYING

5 The paints are designed to dry slowly. This is a unique advantage that lets you mix painting methods, combine with paint brushing, wet blend. For instance, textures, filters, glazes, gradients, nothing to it! Painting and blending using an airbrush has never been easier than with our “Drop & Paint” method. In a rush to finish? No problem! Speed up drying with air, heat, or both if you need to.

VERSATILITY

6 All techniques and procedures are within your grasp. The pigment quality of these paints lets you paint the tiniest of components or large surfaces, both with ease. Simple methods like filters, or layering, even the most advanced, anything is possible.

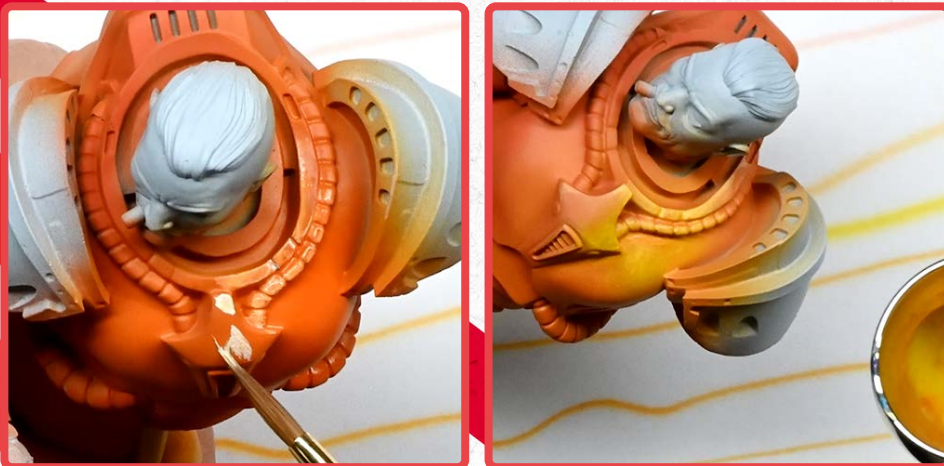

WHY IS DROP & PAINT THE ANSWER?

DROP & PAINT METHOD

7 Use our 3 in 1 mixed technique: a wet base coat, wet blending using a paint brush and a smooth acrylic paste paint like Artist Colors, then finish off with a filter for that refined touch. Achieve perfect gradients in seconds with a variety of finishes. Blending and volumes have never been simpler. Mixing different brands of paint for different sorts of work belongs to the past. All in one!

COLOR RANGE

8 Strong, varied colors spanning the entire range of tones you might need for your projects. 128 different colors!

WHY IS DROP & PAINT THE ANSWER?

MIXING

9. MIXING. 128 tones and you still can't get the right color? These colors can be mixed together with ease, so you can get just the right tone for your models and other projects.
